Supervision between the supervisor-in-training and the certified supervisor will include: discussion of relevant theory and its application in the provision of supervision, discussion of the supervisor-in-training's supervision of the supervisee's case conceptualization, treatment planning and execution, and the ability to manage difficult and complex cases.

The method of supervision will be either face-to-face, telephone, audio/videotaping or some other platform of video conferencing which is HIPPA compliant. It will take place at either the supervisor's or supervisor-in-training's clinical practice location.
