

Ethical Framework Rooted in a DEI Lens

The following are a few questions members of AASECT's Ethics Advisory Committee (EAC) can use in order to adopt a DEI lens while reviewing complaints of ethics violations as well as in creating new policies and/or education initiatives:

- Is there an attempt to center the voices of marginalized/oppressed communities?
- Is there intentional centering of racial and cultural experiences and influences?
- Is there discussion and/or exploration of the possible influences of implicit/explicit bias and discrimination?
- Is there an understanding of the ways in which intersecting systems of oppression may influence the context of this complaint or proposed policy?

Created by Dr. Jayleen Galarza in collaboration with the DEI Committee. Approved by the EAC on November 16, 2020. Approved by the BOD on August 26, 2022.
